

BIOCHEMISTRY RESEARCHER(HBO/BSc)

BIOCHEMISTRY, BIOCATALYSIS

JOB PROFILE

As a researcher, you are primarily responsible for the execution of various experiments in our Biotechnology department, ranging from molecular biology work to protein expression and characterization. You are able to work independently or in a team and you are both flexible and highly motivated with hands-on mentality.

YOUR PROFILE

You...

- have a biochemical background in both practice and education (preferably HBO/BSc).
- are in possession of VMT certificate.
- already have experience in a comparable position and/or work environment (preferred).
- have practical experience with various biochemical methods (cloning, chromatography methods, etc.).
- show good command of Microsoft Office.
- show a good command of the English language.

INFORMATION AND APPLICATION

Contract: full time (40h/week)

Starting date: 1 March 2019 (flexible)

Competitive compensation.

For further information please contact Marcel Schmidt (+31 (0)46 47 60 675 or at marcel@enzymepep.com). Please direct your application electronically to marcel@enzymepep.com. We look forward to your application!

WHO WE ARE

EnzyPep is an emerging, technology-driven biotech-company founded in July 2012 and is, as an independent Innovation & Development Center, part of Fresenius Kabi. At EnzyPep we focus on the synthesis of pharmaceutical peptides using chemo-enzymatic methods. Using a unique combination of classical synthesis of peptide fragments and biocatalysis, EnzyPep develops scalable methods for the synthesis of peptide API's.

EnzyPep is located at the Brightlands Campus in Geleen (near Maastricht, NL).

We are looking forward to hearing from you!
